## **Review report on condensed consolidated interim financial information**

To the Board of Directors of  
Dubai Financial Market P.J.S.C. (DFM)  
Dubai, U.A.E.

### ***Introduction***

We have reviewed the accompanying condensed consolidated interim statement of financial position of Dubai Financial Market (DFM) P.J.S.C. (the 'Company') and its subsidiaries (together referred to as "the Group") as of 31 March 2015 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the three month period then ended and explanatory notes. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting ("IAS 34")". Our responsibility is to express a conclusion on this interim financial information based on our review.

### ***Scope of review***

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### ***Conclusion***

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

**Notes to the condensed consolidated interim financial information  
for the three month period ended 31 March 2015 (continued)**

**2 Summary of significant accounting policies**

**2.1 Basis of preparation**

This condensed consolidated interim financial information has been prepared in accordance with International Accounting Standard (IAS) No. 34: Interim Financial Reporting.

This condensed consolidated financial information does not include all the information required for full annual financial statements and should be read in conjunction with the Group's consolidated financial statements as at and for the year ended 31 December 2014. In addition, results for the three month period ended 31 March 2015 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2015.

The same accounting policies, presentation and methods of computation have been followed in the condensed consolidated financial information as were applied in the preparation of the Group's financial statements for the year ended 31 December 2014.

This condensed consolidated financial information has been prepared on the historical cost basis, except for the revaluation of certain financial instruments at FVTOCI.

The condensed consolidated financial information is prepared and presented in United Arab Emirates Dirham (AED) which is the Group's functional and presentation currency and are rounded off to the nearest thousands ("000") unless otherwise indicated.

**2.2 New and revised IFRSs effective for accounting periods beginning 1 January 2015**

**(a) New and amended standards adopted by the Group**

**Standards and amendments to published standards effective for the Group's accounting period beginning on 1 January 2015**

The following applicable new standards and amendments to an existing standards have been published and are effective for the Group's accounting periods beginning on 1 January 2015.

**Annual improvements 2012 (Effective date – 1 July 2014)**

These annual improvements amend standards from the 2010 - 2012 reporting cycle. It includes changes to:

- IFRS 8, 'Operating segments' which is amended to require disclosure of the judgments made by management in applying the aggregation criteria to operating segments. It is also amended to require a reconciliation of segment assets to the entity's assets when segment assets are reported.
- IAS 16, 'Property, plant and equipment' and IAS 38, 'Intangible assets' are amended to clarify how the gross carrying amount and the accumulated depreciation are treated where an entity uses the revaluation model.
- IAS 24, 'Related party disclosures' is amended to include, as a related party, an entity that provides key management personnel services to the reporting entity or to the parent of the reporting entity (the 'management entity'). Disclosure of the amounts charged to the reporting entity is required.

**2 Summary of significant accounting policies (continued)**

**2.2 New and revised IFRSs effective for accounting periods beginning 1 January 2015  
(continued)**

**(a) New and amended standards adopted by the Group (continued)**

Standards and amendments to published standards effective for the Group's accounting  
period beginning on 1 January 2015 (continued)

**IAS 19, Defined benefit plans: Employee contributions (Effective date – 1 July 2014)**

The amendment clarifies the accounting by entities with plans that require contributions linked only to service in each period. Entities with plans that require contributions that vary with service will be required to recognise the benefit of those contributions over employees' working lives.

The impact of the above amendments to existing standards will not have any significant impact on the Group's condensed consolidated interim financial statements or its consolidated financial statements for the year ending 31 December 2015.

Standards, amendments and interpretations issued but not yet effective for the Group's  
accounting period beginning on 1 January 2015 and not early adopted

**Amendments to IAS 1, 'Presentation of financial statements' (Effective date 1 January  
2016)**

The amendments clarify that it may be necessary to disaggregate some of the line items specified in IAS 1 paragraphs 54 (statement of financial position) and 82 (profit or loss). That disaggregation is required where it is relevant to an understanding of the entity's financial position or performance.

**Annual improvements 2014 (Effective date 1 July 2016)**

These annual improvements amend standards from the 2012 - 2014 reporting cycle. It includes changes to:

- IFRS 7, 'Financial instruments: Disclosures' – The amendment related to servicing contracts requires that if an entity transfers a financial asset to a third party under conditions which allow the transferor to derecognise the asset, IFRS 7 requires disclosure of all types of continuing involvement that the entity might still have in the transferred assets.
- IAS 19, 'Employee benefits' – The amendment clarifies, when determining the discount rate for post-employment benefit obligations, that it is the currency that the liabilities are denominated in that is important, not the country where they arise.

■ IAS 34, 'Interim financial reporting', regarding information disclosed elsewhere in the interim financial report. The amendment clarifies what is meant by the reference in the standard to 'information disclosed elsewhere in the interim financial report'. The amendment further amends IAS 34 to require a cross-reference from the interim financial statements to the location of that information. The amendment is retrospective.

**IFRS 15, 'Revenue from contracts with customers' (Effective date 1 January 2017)**

This standard replaces IAS 11, 'Construction contracts', IAS 18, 'Revenue' and related interpretations. Revenue is recognised when a customer obtains control of a good or service and thus has the ability to direct the use of and obtain the benefits from the good or service. The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. IFRS 15 also includes a cohesive set of disclosure requirements that will result in an entity providing users of financial statements with comprehensive information about the nature, amount, timing and uncertainty of revenue and cash flows arising from the entity's contracts with customers.

**IFRS 9 'Financial Instruments' (Effective date 1 January 2018)**

The complete version of IFRS 9 replaces most of the guidance in IAS 39. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortised cost, fair value through OCI and fair value through P&L. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. Investments in equity instruments are required to be measured at fair value through profit or loss with the irrevocable option at inception to present changes in fair value in OCI. There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in other comprehensive income, for liabilities designated at fair value, through profit or loss.

**(a) New and amended standards adopted by the Group (continued)**

**Standards, amendments and interpretations issued but not yet effective for the Group's  
accounting period beginning on 1 January 2015 and not early adopted (continued)**

IFRS 9 relaxes the requirements for hedge effectiveness by replacing the bright line hedge effectiveness tests. It requires an economic relationship between the hedged item and hedging instrument and for the 'hedged ratio' to be the same as the one management actually uses for risk management purposes. Contemporaneous documentation is still required but is different to that currently prepared under IAS 39. Earlier application is permitted. If an entity elects to early apply it must apply all of the requirements at the same time with the following exception: Entities with a date of initial application before 1 February 2015 continue to have the option to apply the standard in phases. The Group has early adopted the November 2009 classification and measurement version of IFRS 9. Since this adoption was before 1 February 2015, the Group is not required to early adopt the phases pertaining to impairment and hedging issued in July 2014. Accordingly, the Group continues to apply the impairment provisions of IAS 39.

Management is yet to assess the impact of the impact of the above new standards and amendments to existing standards issued but not yet effective for the Group's accounting period beginning on 1 January 2015 on the Group's condensed consolidated interim financial statements or its consolidated financial statements for the year ending 31 December 2015.

**Notes to the condensed consolidated interim financial information  
for the three month period ended 31 March 2015 (continued)**

**3 Basis of consolidation**

The condensed consolidated interim financial information incorporates the interim financial information of the Company and the entities controlled by the Group (its subsidiaries) (together the "Group"). The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

The results of subsidiaries acquired during the period are included in the condensed consolidated interim statement of income from the effective date of acquisition.

Where necessary, adjustments are made to the condensed consolidated interim financial statements of the subsidiaries to bring the accounting policies in line with those used by the Company. All intra-group transactions, balances, income and expenses are eliminated on consolidation.

**4 Estimates**

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the financial statements as at and for the year ended 31 December 2014.

**5 Financial risk management**

The Group's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2014.

**17 Segment reporting**

Following the management approach to IFRS 8, operating segments are reported in accordance with the internal reporting provided to the Board of Directors (the chief operating decision-maker), which is responsible for allocating resources to the reportable segments and assesses its performance. The Group is managed as one unit and therefore the Board of Directors are of the opinion that the Group is engaged in a single segment of operating a stock exchange and related clearing house.

**18 Non Sharia compliant income**

Non Sharia compliant income of AED 29.6 million relating to 2014 (2014: AED 15.7 million relating to 2013 appropriated in 2014) as approved by the Company's Sharia and Fatwa Supervisory Board, has been appropriated from retained earnings in 2015 for distribution by the Group to its shareholders towards disbursement by the shareholders for charitable purposes. Based on the ruling of the Sharia and Fatwa Supervisory Board, it is the sole responsibility of the individual shareholders to donate their respective shares of this amount for charitable purposes. Non Sharia compliant income for the year 2014 has been distributed by the Company to the shareholders in 2015 (Note 12).

**19 Fair value of financial instruments**

The Group's financial assets and financial liabilities comprise of cash and bank balances, investment deposits, receivables and payables whose maturity is short term. Long term investment deposits carry market rates of return. Consequently their fair value approximates the carrying value stated in the consolidated statement of financial position.

The Group has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

**for the three month period ended 31 March 2015** (continued)

20

**19 Fair value of financial instruments** (continued)

- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The fair value of financial instruments traded in active markets is based on quoted market prices at the consolidated statement of financial position date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. These instruments are included in level 1. Instruments included in level 1 comprise primarily quoted equity investments classified as fair value through other comprehensive income.

The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. These investments comprise funds the fair values of which are based on the net asset value provided by the fund managers.

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. Level 3 assets represent unquoted private equity and mutual fund investments whose fair value is determined based on varying unobservable assumptions which depend on a broad range of macroeconomic factors. The carrying values of these investments are adjusted as follows:

- Private equity investments - using the latest available net book value and market approach using prevailing secondary market prices of similar instruments.
- Mutual funds - based on the net asset value derived from the EBITDA/PE multiple or value per share provided by the fund managers.

There were no changes in valuation techniques during the period.

The following table presents the Group's assets and liabilities that are measured at fair value at 31 March 2015 and 31 December 2014.
