Review report on condensed consolidated interim financial information

To the Board of Directors of
Dubai Financial Market P.J.S.C. (DFM)
Dubai, U.A.E.

Introduction

We have reviewed the accompanying condensed consolidated interim statement of financial position of Dubai Financial Market (DFM) P.J.S.C. (the 'Company') and its subsidiaries (together referred to as "the Group") as of 30 June 2013 and the related condensed consolidated interim statements of income, comprehensive income, changes in equity and cash flows for the six month period then ended and other explanatory notes. Management is responsible for the preparation and presentation of this interim financial information in accordance with International Accounting Standard 34, "Interim Financial Reporting ("IAS 34")". Our responsibility is to express a conclusion on this condensed consolidated interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed consolidated interim financial information is not prepared, in all material respects, in accordance with IAS 34.

2 Summary of significant accounting policies

2.1 Basis of preparation

This condensed consolidated interim financial information has been prepared in accordance with International Accounting Standard (IAS) No. 34: Interim Financial Reporting.

This condensed consolidated financial information does not include all the information required for full annual financial statements and should be read in conjunction with the Group's consolidated financial statements as at and for the year ended 31 December 2012. In addition, results for the six month ended 30 June 2013 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2013.

The same accounting policies, presentation and methods of computation have been followed in the condensed consolidated financial information as were applied in the preparation of the Group's financial statements for the year ended 31 December 2012.

The condensed consolidated financial information is prepared and presented in United Arab Emirates Dirham (AED) which is the Group's functional and presentation currency and are rounded off to the nearest thousands ("000") unless otherwise indicated.

2.2 New and revised IFRSs effective for accounting periods beginning 1 January 2013

The following applicable new standards and amendments to an existing standard have been published and are effective for the Group's accounting periods beginning on 1 January 2013.

- IAS 27, (revised 2011) 'Separate financial statements'. This standard includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10. This standard shall be applied in accounting for investments in subsidiaries, joint ventures and associates when an entity prepares or elects to prepare separate financial statements.
- IFRS 10, Consolidated Financial Statements - Replaces the part of IAS 27 Consolidated and Separate Financial Statements related to consolidated financial statements and replaces SIC 12 Consolidation — Special Purpose Entities. Under IFRS 10 there is only one basis of consolidation that is control, for which a new definition has been included.
- IFRS 11, 'Joint arrangements' IFRS 11 is a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement rather than its legal form. There are two types of joint arrangement: joint operations and joint ventures. Joint operations arise where a joint operator has rights to the assets and obligations relating to the arrangement and hence accounts for its interest in assets, liabilities, revenue and expenses. Joint ventures arise where the joint operator has rights to the net assets of the arrangement and hence equity accounts for its interest. Proportional consolidation of joint ventures is no longer allowed.

**Notes to the condensed consolidated interim financial information
for the six month period ended 31 March 2013 (continued)**

2 Summary of significant accounting policies (continued)

2.2 New and revised IFRSs effective for accounting periods beginning 1 January 2013 (continued)

- IFRS 12, Disclosure of Interests in Other Entities - Replaces the requirements previously included in IAS 27 – Consolidated and Separate Financial Statements, IAS 31 – Interests in Joint Ventures and IAS 28 - Investments in Associates. In general, the disclosure requirements are more extensive than the current standards.
- IFRS 13, 'Fair value measurement'. This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements, which are largely aligned between IFRS and US GAAP, do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRS or US GAAP.

Management has assessed the impact of the above new standards and amendments to an existing standard and has concluded that there is no significant impact expected from the same on the Group's condensed consolidated interim financial information, but is expected to result in additional disclosures in the consolidated financial statements for the year ended 31 December 2013.

2.3 New amendments issued but not effective for the financial year beginning 1 January 2013 and not early adopted by the Group

The Group has not early adopted the following amendments that has been issued but not yet effective:

New amendments to Standard:	Effective for annual period beginning on or after
The amendments to IAS 32, Financial Instruments: Presentation – The amendments clarify the offsetting criteria in IAS 32 to address inconsistencies in their application. An entity will have a legally enforceable right to set off only if it is non-contingent in nature and is enforceable in the normal course of business and in the event of default, insolvency or bankruptcy	1 January 2014

3 Basis of consolidation

The condensed consolidated financial information incorporates the interim financial information of the Company and the entities controlled by the Group (its subsidiaries) (together the "Group"). Control is achieved where the Group has the power to govern the financial and operating policies of entities so as to obtain benefits from its activities.

The results of subsidiaries acquired during the period are included in the condensed consolidated interim statement of income from the effective date of acquisition.

Where necessary, adjustments are made to the condensed consolidated interim financial information of the subsidiaries to bring the accounting policies in line with those used by the Company.

All intra-group transactions, balances, income and expenses are eliminated on consolidation.

**Notes to the condensed consolidated interim financial information
for the six month period ended 30 June 2013 (continued)**

4 Estimates

The preparation of condensed consolidated interim financial information requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgments made by management in applying the accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the financial statements as at and for the year ended 31 December 2012.

5 Financial risk management

The Group's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended 31 December 2012.
