### FEATURES

#### Coverage

The FTSE/JSE Africa Index Series is designed to represent the performance of South African companies, providing investors with a comprehensive and complementary set of indices, which measure the performance of the major capital and industry segments of the South African market.

#### Versatility

The index series provides investors with access to a range of market and industry segments, from large to small cap companies, and can be used as the basis of financial products, including Exchange Traded Funds (ETFs) and derivatives.

#### Investability

The index series uses FTSE's world class indexing standards, including free-float weighting and liquidity screening, to ensure that the indices are both investable and tradable.

#### Global Sector Classification

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
