# HEDGE FUND CAPITAL SURGES TO NEW RECORD AS MANAGERS, ALLOCATORS POSITION FOR UNPRECEDENTED RISKS

***HFRI Equity Hedge Index narrowly edges Event-Driven for top strategy inflows; Macro also sees inflows, posts 2nd strongest quarterly performance since 2003***

CHICAGO, (April 22, 2024) – Hedge fund capital extended the year-end surge, rising to a historic \$4.3 trillion milestone in 1Q24 on strong performance and investor inflows, with managers navigating a complex environment on improving economic outlook and acceleration of M&A concurrent with unprecedented geopolitical risks, including ongoing and potential military conflicts as well as inflation, interest rate and macroeconomic uncertainty.

Total hedge fund assets increased for the sixth consecutive quarter in 1Q 2024, rising to an estimated \$4.30 trillion, representing a quarterly increase of nearly \$190 billion, as reported today by HFR®, the established global leader in the indexation, analysis and research of the global hedge fund industry, in the latest release of the *HFR Global Hedge Fund Industry Report*. The growth in hedge fund capital was driven by strong 1Q performance-based gains and net asset inflows, as investors increased exposure to both directional Equity Hedge, Event-Driven and uncorrelated Macro strategies.

The HFRI Fund Weighted Composite Index® advanced +4.5 percent in 1Q24, led by directional Equity Hedge and Event-Driven strategies, with gains driven by exposure to Technology/AI, as well as acceleration in M&A. Larger funds produced higher relative performance, with the HFRI Asset Weighted Composite gaining +5.12 percent for the quarter. The HFR Cryptocurrency Index returned +47.9 percent in 1Q, bringing the trailing 6-month return to +106.9 percent.

Capital managed by Equity Hedge (EH) strategies surged by nearly \$70 billion to begin 2024, rising to a record level of \$1.25 trillion, driven by performance-based gains, as well as estimated net asset inflows of \$8.5 billion. EH sub-strategy asset increases were led by Fundamental Value funds in 1Q, which increased by an estimated \$37.0 billion for the quarter, bringing total EH: Fundamental Value capital to an estimated \$706.8 billion. The HFRI Equity Hedge (Total) Index posted a strong gain +5.2 in 1Q after leading all strategy indices for 2023 with a gain of +11.4 percent.

Event-Driven (ED) strategies, which categorically focus on out of favor, often heavily shorted, deep value equity and credit positions, experienced an estimated asset increase of nearly \$49 billion in 1Q, raising total ED capital to a record \$1.21 trillion, inclusive of estimated net investor inflows of \$8.0 billion for the quarter. ED sub-strategy asset increases were once again concentrated in higher beta Special Situations and Shareholder Activist strategies, with these increasing by \$17 billion and \$13.4 billion, respectively, in 1Q24. The HFRI Event-Driven (Total) Index gained +2.5 percent in 1Q24 with higher performance from larger managers as the HFRI Event Driven (Asset Weighted) Index advanced +3.9 percent, led by the HFRI ED: Activist Index, which surged +6.1 percent.

Uncorrelated Macro strategies posted its second-strongest quarterly performance since 2003, with the HFRI Macro (Total) Index surging +6.2 percent in 1Q24, trailing only the +6.7 percent gain in 1Q22 over the last 20+ years. Larger Macro funds delivered stronger relative performance in 1Q, as the HFRI Macro (Total) Index – Asset Weighted jumped +7.15 percent, led by Systematic Macro strategies and complemented by fundamental strategies. Total Macro capital increased by an estimated \$44.8 billion in 1Q, inclusive of net asset inflows of \$1.7 billion for the quarter, increasing total Macro strategy capital to \$715 billion. Macro sub-strategy asset increases were led by quantitative, trend-following Systematic Diversified CTA strategies, which added an estimated \$28.1 billion in 1Q. Macro sub-strategy performance was led by the fundamental HFRI Macro: Systematic Diversified Index, which surged +9.4 percent in 1Q, while the HFRI Trend Following Index jumped +8.1 percent for the quarter.

Hedge fund capital managed by credit- and interest rate-sensitive fixed income-based Relative Value Arbitrage (RVA) strategies also increased in 1Q as managers positioned for continued inflationary pressures and elevated interest rates, with RVA capital increasing by an estimated \$25.8 billion in 1Q, raising total RV capital to an estimated \$1.13 trillion. Multi-Strategy funds led RVA asset increases in 1Q24, adding an estimated \$17.2 billion of capital to end the quarter at \$692 billion. The HFRI Relative Value (Total) Index gained +2.5 percent in 1Q24 with sub-strategy performance led by the HFRI RV: Convertible Arbitrage Index, which advanced +4.0 percent.

Investor capital inflows in 1Q24 were heavily concentrated in the industry's largest firms with firms managing greater than \$5 billion experiencing an estimated net inflow of \$14.4 billion. Mid-sized firms managing between \$1 and \$5 billion experienced a smaller inflow of \$1.67 billion, while firms managing less than \$1 billion experienced an estimated inflow of \$ 0.5 billion.

“Total hedge fund capital accelerated the year end surge in the first quarter to surpass the \$4.3 trillion milestone, as managers focused on unprecedented risks and opportunities dominating allocations into mid-year 2024, with the most significant of these being geopolitical/military conflict, but also including ongoing volatile inflation, interest rates and macroeconomic considerations which have dominated the past two years. At the same time, managers are also accessing exciting, volatile, and rich opportunity sets in AI, Technology, Cryptocurrency and M&A, positioning portfolios to access these,” stated Kenneth J. Heinz, President of HFR. “While 1Q24 was dominated by risk-on sentiment, early 2Q has experienced a sharp inflection point to intense risk-off sentiment, with growth areas such as semiconductors reaching correction territory on weakening demand and moderation of expectations for interest rate decreases in 2024. While many of the macroeconomic risks have remained and evolved over the past two years, geopolitical risk has accelerated to a historic, generational high, not only as pertaining to ongoing and potential military conflicts and foreign policy questions, but also relating to the political election cycle in the US, which has the potential to increase uncertainty and increased possibility for financial market dislocations associated with policy shifts. Managers which have demonstrated their ability to generate performance through both risk-on, risk-off and volatile transitions between these two paradigms are likely to attract increased interest from institutional investors seeking both opportunistic access to these opportunities while protecting portfolios from volatility and risk.”

HFR® is the global leader in the alternative investment industry. Established in 1992, HFR specializes in the areas of indexation and analysis of hedge funds. HFR Database, the most comprehensive resource available for hedge fund investors, includes fund-level detail on historical performance and assets, as well as firm characteristics on both the broadest and most influential hedge fund managers. HFR has developed the industry's most detailed fund classification system, enabling granular and specific queries for relative performance measurement, peer group analysis and benchmarking. HFR produces over 100 indices of hedge fund performance ranging from industry-aggregate levels down to specific, niche areas of sub-strategy and regional investment focus. With performance dating back to 1990, the HFRI Fund Weighted Composite Index is the industry's most widely used standard benchmark of hedge fund performance globally. The HFR suite of Analysis Products leverages the HFR Database to provide detailed, current, comprehensive and relevant aggregate reference points on all facets of the hedge fund industry. HFR also offers consulting services for clients seeking customized top-level or more nuanced analysis.

*For the hedge fund industry's leading investors and hedge fund managers,*  
**HFR is The Institutional Standard**

### About HFR Database

The licensed/redistributed HFR Database, currently comprised of nearly 6,000 alternative investment products, is available to all accredited investors. Information on our hedge fund universe of established and emerging managers is collected directly from the fund managers and/or their respective offshore administrators, while other pertinent information is culled from offering memoranda, onsite visits, and due diligence interviews.

HFR Database is utilized globally by thousands of accredited investors at leading banks, brokerage firms, investment advisors, wealth managers, funds of hedge funds, hedge funds, academic institutions, foundations, endowments, family offices and sovereign wealth funds. All client relationships are confidential in nature.

HFR believes that accurate information on fund managers is critical to any alternative investment enterprise. To that end, our analysts have monitored and tracked performance and administrative data internally on over 26,000 historically, covering both domestic and international funds, offering comprehensive information not available from other commercial data providers. HFR's dedicated Research Staff searches for new funds to add to the Database on a daily basis.

#### ▶ HFR provides subscribers with an unparalleled breadth of fresh information with daily updates

- HFRDatabase.com is updated daily with fresh data & information, recently submitted by a broad spectrum of funds. New fund data is added by HFR staff or by the fund managers themselves. We do not work with third party data providers

#### ▶ HFR works directly with FUND MANAGERS to gain the most up-to-date and accurate fund info possible

- HFR requests that our client fund managers report performance by the 15th of each month. We also directly integrate the fund manager with HFR Database by providing them with their own website for updating their fund profile. In this manner HFR ensures current and accurate fund data that flows seamlessly from fund managers to subscribers.

#### ▶ Database includes Administrative, ROR, AUM, Instruments and Region fund data
