(Note) As described in the "Notice regarding Stock Split as well as accompanying Partial Amendment to the Articles of Incorporation and Dividend Forecast Revision" disclosed on July 28, 2015, a 2-for-1 stock split will be conducted with a record date of September 30, 2015 (effective on October 1, 2015). As such, the basic earnings per share were calculated for the previous and current fiscal year based on the assumption that such stock split had been conducted at the beginning of the previous consolidated fiscal year.

If the increase in the total number of shares due to the stock split is not considered, the figures for the previous forecasts, revised forecasts, and consolidated results for the previous fiscal year will be ¥120.20, ¥140.24, and ¥125.41 respectively.

2. Reason for Revision

In light of recent market conditions, we have revised the average daily trading values and volumes which were the assumptions used in the consolidated earnings forecast in the "Consolidated financial results for the year ended March 31, 2015 (Based on IFRS), unaudited" announced on April 28, 2015 (hereinafter "previously disclosed material"). Specifically, the consolidated earnings forecast was revised based on the revised assumptions of average daily trading values and volumes (changes from previously disclosed material indicated in parentheses) of ¥3 trillion for cash equities* (up ¥600 billion), 39,000 contracts for 10-year JGB futures (down 5,000 contracts), 100,000 contracts for TOPIX futures (unchanged), 223,000 contracts for Nikkei

225 futures (including mini contracts converted to large-sized contracts) (up 2,000 contracts), and ¥27.0 billion for Nikkei 225 options (excluding weekly options) (down ¥6.5 billion).

* The trading value of issues listed on the TSE 1st and 2nd Sections, Mothers, JASDAQ, TOKYO PRO Market, ETFs, ETNs, and REITs (including off-auction trading).

3. Revised Dividend Forecast

We adopt a dividend policy with a target payout ratio of about 60% tied to business performance while giving due consideration to the importance of internal reserves for the following purposes:

- Maintaining sound financial health as a financial instruments exchange group,
- Preparing for risks as a clearing organization, and
- Enabling the group to pursue investment opportunities to raise the competitiveness of its markets as they arise.

In line with the above mentioned policy, dividend forecasts for the fiscal year ending March 31, 2016 have been revised as follows due to an expected increase in net income attributable to owners of the parent company from the revision to the consolidated earnings forecast.

	Dividend per share (yen)		
	Second quarter	Year-end (Note)	Annual
Previous forecast	36.00	18.50	—
Revised forecast	42.00	21.00	—
For the fiscal year ended March 31, 2015	18.00	32.00	50.00

(Note) Amounts for the previous dividend forecast and revised dividend forecast are those after the 2-for-1 stock split, which will be conducted with a record date of September 30, 2015. If the increase in the total number of shares due to said stock split is not considered, the previous dividend forecast and revised dividend forecast will be ¥37 and ¥42 respectively.
