FEATURES

Coverage

The FTSE/JSE Africa Index Series is designed to represent the performance of South African companies, providing investors with a comprehensive and complementary set of indices, which measure the performance of the major capital and industry segments of the South African market.

Versatility

The index series provides investors with access to a range of market and industry segments, from large to small cap companies, and can be used as the basis of financial products, including Exchange Traded Funds (ETFs) and derivatives.

Investability

The index series uses FTSE's world class indexing standards, including free-float weighting and liquidity screening, to ensure that the indices are both investable and tradable.

Industry Classification Benchmark

Index constituents are categorized in accordance with the Industry Classification Benchmark (ICB), the global standard for industry sector analysis.
